SUMMARY

Software Test Engineer with hands-on knowledge of Manual Testing, SDLC, STLC, Defect Life Cycle, Test Case Design, and Bug Reporting using JIRA. Skilled in SQL, Core Java, and Automation Testing, with experience in testing web-based applications and Agile Scrum methodology. Seeking an opportunity to apply quality assurance skills, contribute to reliable software delivery, and grow as a Software Testing professional.

SKILLS

Manual Testing

- SDLC
- Black box, white box, gray box Testing
- STLC
- Defect Life cycle
- Test Case

Automation Testing

- Testing tools: Selenium Webdriver
- Locator: Xpath, CssSelector
- Methods: WebDriver, WebElement
- Framework: Hybrid, TestNG, Modular, Data Driven, Keyword Driven, Page object Model

Testing Methodologies

- Agile Scrum

SQL: RDBMS

- Relational Model
- Operators: Special, Sub Query, Logical
- Functions: Aggregate, Single
- Sub Query: Nested, Co-related
- Joins: Self, inner, Natural

Core Java

- Data Type , Tokens
- Statement: Looping, Decision Making
- OOPs: Encapsulation ,Inheritance, Polymorphism, Abstraction
- Exceptions & Exception handling
- Array , String , List , Collection.

PROJECTS

E-Commerce Website Testing

Duration: Two weeks

Description: Performed manual testing of an e-commerce web application by designing and executing test cases, reporting defects, validating data using SQL, and performing Smoke, Sanity, and Regression Testing in an Agile Scrum environment.

Technologies: Manual Testing, Jira, Agile Scrum

Key Responsibilities:

- Designed and executed manual test cases for e-commerce functionalities.
- Performed Smoke, Sanity, and Regression Testing.
- Identified and reported defects using Jira in an Agile/Scrum environment.

E-Commerce Web Application – Test Automation Framework

Tech Stack: Java, Selenium WebDriver, TestNG, Maven, Jenkins, Git, GitHub, Apache POI, Extent Reports, Postman, Jira

Framework: Hybrid POM

- Developed a **Hybrid POM-based automation framework** using Java and Selenium WebDriver to automate key e-commerce workflows such as registration, login, product search, cart, and checkout.
- Used **TestNG** annotations, assertions, and groups for test execution and organization.
- Implemented **Data-Driven Testing** using Apache POI to execute test cases with multiple datasets.
- Integrated **Maven and Jenkins** for dependency management and automated test execution.
- Performed **Smoke, Regression, and Cross-Browser Testing** on Chrome and Edge.
- Used **Extent Reports** for test reporting, **Jira** for defect tracking, **Postman** for API validation, and **Git/GitHub** for version control.

CERTIFICATES

Software Testing Certification (Manual Testing, Selenium WebDriver, Core Java & SQL) – QSpiders,
Pune

EDUCATION

B.Tech in Electronics and Telecommunication

2026

Percentage: 68.8%

Nagpur, Maharashtra

HSC

2022

Percentage: 77.40%

Nagpur, Maharashtra

SSC

2020

Percentage: 76.14%

Nagpur, Maharashtra

ACHIEVEMENT

- 1st Rank National level Project competition (SCET)
- 2nd Rank paper presentation competition. National level Techfest (BIOFUSION – 2025)

LEADERSHIP

Cultural Head – TEESA (Electronics & Telecommunication Engineering Student Association)

Demonstrated leadership, team management, communication, and organizational skills through successful event coordination.

SOFT SKILLS

- Leadership
- Analytical and Logical Thinking
- communication
- Problem Solving
- Team work
